# **VOLVO B8R SHORT EURO 6**

With Irizar i6 3700 body

# Volvo B8R Short Euro 6

With Irizar i6 3700 body

The new Volvo B8R Short Euro 6 with an Irizar i6 3700 body, combines the reliability and efficiency of Volvo's standard B8R European Driveline with the modern and classic design of the Irizar i6. Across its 10.8 meters, this new vehicle offers a body capacity that can be configured with 35 to 45 seats, and a suite of premium interior features to suit your needs. The Volvo B8R also offers Volvo's most fuel efficient D8K Euro 6 engine, a ZF transmission, and the option to incorporate Volvo's Driver Support System (DSS). This model also comes with a range of Volvo contracts and additional service offerings to choose from to ensure maximum efficiency, uptime and support for your business.
